MORE THAN GREEN SPACE

This is space to breathe. Stretch out in the rooftop garden geared to boost healthy lifestyles with a unique wild play area, open naturescapes and spacious outdoor seating areas. A selection of productive fruit trees will be planted, paying homage to the site's fruit growing history.

We all want to live healthier lives. Here, it's that little bit easier, with space to relax, work-out and recover. A designated yoga studio, meditation room and gym with infrared sauna give you every opportunity to thrive—both mentally and physically.

STREETSCAPE

Melrose Park Village has been designed as a collection of buildings, creating journeys through the landscape that enhance access to light, outlooks and a more human-scaled, granular streetscape. Woven through the experience are outdoor rooms for entertaining and relaxing.

Architecture can shape better living. Here, all floor plans are designed to maximise Sydney's amazing natural light, as well as natural air flow and views. In time you'll really appreciate the considered use of enduring materials that ensure simple upkeep and lasting quality. Plus the use of Smart Home technology and energy/water monitoring mean Melrose Park will continue to drive change around sustainability.
